

**ENVIRONMENTAL SAFETY AND HEALTH**

The College will provide a safe and healthful environment for employees, students and visitors. The Board and Administration will provide all mechanical and physical facilities, as well as needed training, required to accomplish this goal. The Environmental Safety Committee is responsible for establishing and maintaining a safety program that conforms to all local, state and federal regulations. All employees are required to comply with procedures and/or safety plans set forth by the Environmental Safety Committee (e.g., Hazard Communication, Bloodborne Pathogens, Emergency Action).
