Omaha, NE 68103-0777***

Directions to the Southeast Community College Campus:

Our campus is located on the eastern edge of Lincoln near the intersection of 84th and 'O' Streets. The address is 8800 'O' Street. We will be meeting in the [U section](#) (rooms U-102,104 & 106). Parking is free.

One of the sessions we will be doing at this year's NEBMATYC conference is called "Here's something that works". The session requires some advance preparation on your part.

Instructions for "Here's Something That Works"

For this session we would like you to bring along some instructional idea to share with other instructors. Identify one project, activity, or assignment you have tried that was particularly effective or successful. During the session, we will discuss the particulars of your activity. The goal is for everyone to leave the conference with multiple examples of neat things to use in our teaching. The activity could be for any math class or level. It might be short or long, an out-of-class assignment, an in-class activity, or some technique that you use to promote active student engagement. Please provide a descriptive title for your activity below. This will be included along with your e-mail address in a handout that everyone will receive at the conference.

Activity Title: _____
