

# Nursing

The nursing programs at Northeast Community College are designed to allow the students maximum mobility for either the practical or associate degree nursing education. All students accepted into the program who successfully complete the first two semesters receive a diploma in practical nursing and may opt to take the NCLEX-PN exam for licensure. Based on grade point average, a student may be eligible to complete the last two semesters of the program to receive an associate degree in nursing and take the NCLEX-RN exam.

The nursing program may be completed in one, two or multiple years, based on admission criteria. Part-time and full-time options are available. The program plan of study can be customized to meet the individual student's needs. See nursing program admission requirements.

The nursing program is approved by the Nebraska State Board of Nursing and accredited by the National League for Nursing Accrediting Commission (NLNAC), 61 Broadway, New York, NY 10006, 1-800-669-1656.

Many health care providers require a criminal background check prior to employment. Students will be required to submit to a criminal background check prior to acceptance into the program.
