

RURAL AGRIBANKING OPTION

The rural agribanking option of the business program introduces students to basic business and banking concepts, as well as the agricultural aspects of working in a rural bank. Upon completion of the degree, graduates are prepared to enter the banking industry and be leaders in their communities. **See page 89 for Business required program of study.**

72-77

* Students with no accounting work experience or high school accounting are encouraged to take Basic Accounting Procedures prior to Accounting I.

NOTE: The associate of applied science degree is suggested for those seeking employment upon graduation and feel quite sure that they will not continue their education toward a bachelors degree. Students interested in continuing their education at a four-year college or university should enroll in the business administration program.
